AS-FED COMPOSITION ESTIMATES

| Dry Matter | % | 92.50 | |
|--------------------------|------------|-------|---|
| Crude Protein | % | 51.10 | |
| Crude Fat | % | 9.62 | |
| Crude Fiber | % | 8.65 | |
| Acid Detergent Fiber | % | 21.00 | |
| Ash | % | 2.10 | |
| Phosphorus | % | 0.56 | |
| Potassium | % | 0.38 | |
| Sulfur | % | 0.62 | |
| Arginine | % | 2.62 | |
| Arginine Digestibility | % of total | 90.88 | Y |
| Histidine | % | 1.81 | |
| Histidine Digestibility | % of total | 88.97 | Y |
| Isoleucine | % | 2.16 | |
| Isoleucine Digestibility | % of total | 86.73 | Y |

| Leucine | % | 6.53 | |
|-----------------------------|------------|-------|---|
| Leucine Digestibility | % of total | 92.83 | Y |
| Lysine (total) | % | 1.98 | |
| Lysine Digestibility | % of total | 82.70 | Y |
| Methionine | % | 1.08 | |
| Methionine Digestibility | % of total | 91.49 | Y |
| Phenylalanine | % | 2.93 | |
| Phenylalanine Digestibility | % of total | 90.12 | Y |
| Threonine | % | 1.98 | |
| Threonine Digestibility | % of total | 85.25 | ¥ |
| Tryptophan | % | 0.42 | |
| Tryptophan Digestibility | % of total | 88.96 | Y |
| Valine | % | 2.58 | |
| Valine Digestibility | % of total | 86.81 | Y |
| TMEn | Kcal/kg | 3,175 | |
| | | | |

Measured in Gallus gallus domesticus (cecectomized roosters)

PROTOMAX™ yeast-enriched 50% protein is made in biorefineries with the Advanced Processing Package™ by ICM, Inc.

The PROTOMAX™ sample was collected from a production facility in Colwich, KS. Analysis was completed by independent laboratories and paid by the producer. PROTOMAX™, the PROTOMAX™ logo, Advanced Processing Package™, the Advanced Processing Package[™] logo and the ICM logo are trademarks of ICM, Inc. in the United States. © 2020, ICM Feed Innovation.
